11/6/2010 · Old suspensions just aren't the best when it comes to adding big power. The more power you add and the harder you try to launch, the more that torque wants to twist the chassis. Case in point, our peg-legging Chevelle. We are hoping to get the Chevelle launching straight with faster 60-foots with some help from TRZ and their twenty-first century suspension components.

Scott's Rear Suspension is quite simply....simple. The 4-Bar Rear Suspension Kit is designed to be both user-friendly and fully adjustable at the same time. We use our CNC Machined & Tapped Stainless Steel Rod Ends with right-hand or left-hand thread. This allows the user to adjust the pinion angle and set up without unbolting the link bars.
