New brake pads should always be greased at their contact points, in addition to greasing the caliper guide pins and replacing the brake pad hardware, if applicable. Once the caliper has been compressed, you can then replace the caliper and caliper bolts, bleed the brakes, and replace the wheel.

In 1998, Acura did a recall of the lower ball joints and control arms, replacing these parts for approximately 124,875 units. Brakes. Needless to say, the braking system of the Acura RL is a very important component of the vehicle. Unfortunately, the RL is not immune to problems with the braking system. A common one is with the brake stop switch.
