Info. For many car parts, such as engines and cylinder heads, it is important that you specify the correct motor code on your request. The engine code is usually stamped somewhere into the engine block. The first 4 or 5 letters / numbers usually provide enough technical information for a car parts supplier to find the right engine related car part for you.

Code Chart lists: 158 – Black- Pink HASH. ATTENTION Please Read This. It is important to note that there may be errors in the diagrams, even though they are original Ford publications. Below are two examples of possible errors because the color code on the page diagram does not match the master Car Standard Wire Code Chart. If your vehicle ...
