The Passat 2006 features further innovations in the area of vehicle electrics and electronics. The developers have paid particular attention to comfort in this car. One example is the entry and start authorisation switch. For the first time, you do not have to turn the ignition key to start the engine.

The drive concept fitted in the Passat 2006 has been redesigned to achieve these outstanding characteristics. The engine is mounted in the classic transverse configuration. Passat model year 2006 product characteristics: Separate self-study programmes are available on the following topics: SSP 340 The Passat 2006 - electrical system
