Energy subsidies are among the most pervasive, and most controversial fiscal policy tools in the Middle East and North Africa (MENA). Among their original objectives, protecting the income of low-income households and fostering domestic industrial growth, continue to render their reform difficult, from a political, economic, and social perspective.

political-economy of the Middle East had been in a chokehold of dependence on the global, Western-dominated economic system. According to this line of thinking, the exploitive nature of the system kept countries in a chronic state of abject poverty, a condition which could eventually percolate to the surface in the form of civil conflict or
