Advanced Financial Accounting & Reporting Accounting concepts Accounting concepts define the assumptions on the basis of which financial statements of a business entity are prepared. Certain concepts are perceived, assumed and accepted in accounting to provide a unifying structure and internal logic to accounting process.

organisational strategic decision-making. Students will develop and apply analytical and problem-solving skills to provide advice on issues associated with strategy development, implementation and monitoring.

From the outside, accounting can appear to be a purely practical subject. It would be very easy to focus on just the applications of techniques and procedures. But accounting is more than just a set of calculations; unless we can understand and interpret the figures we ...
