The aerial survey was undertaken in an area where strategic development land allocations are concentrated, and where there had been no previous projects using National Mapping Programme (NMP) standards. As projects using NMP methods are a productive source of new archaeological information in rural landscapes, the results from the Severn Vale NMP

29/7/2021 · The Aerial Archaeology Research Group (AARG) began life in 1983 after some earlier seminars called to discuss ideas raised by Paul Ashbee (then of the University of East Anglia) and David Wilson (of CUCAP). (See AARGnews 28 and 47).. The critical issue was to examine ways of obtaining archaeological

Early in 1999, Section H7 (Archaeology) of the British Academy discussed the current position of Aerial Survey in British archaeology. A number of changes in the organisation of Aerial Survey had been proposed and in part implemented by various agencies, and the Section considered it timely to examine the implications of recent developments.

According to Hugh Davies in Roman Roads in Britain (Shire Archaeology, 2008), the Romans began building a network of roads in Britain “almost as soon as they arrived” (p. 6). What we know about Roman roads are based on modern archaeological evidence and investigation, as there are few surviving documents about the
