**The Lens Every Photographer Should Have and Use: The 35mm ...**

*To answer the question posed by fellow writer Todd Vorenkamp in his article about the venerable 50mm prime, the lens I would choose if I were to be stranded on a desert island would have to be a 35mm prime. Sure, the 50mm is an old and reliable choice that should cover most subjects, but it doesn't work amazingly for anything specific and, frankly, I think it's a little boring these days.*
