Overview. The audit opinion is intended to provide reasonable assurance, but not absolute assurance, that the financial statements are presented fairly, in all material respects, and/or give a true and fair view in accordance with the financial reporting framework. The purpose of an audit is to provide an objective independent examination of the financial statements, which increases the value ...

Government and Not-for-Profit Accounting highlights the dynamic nature and constant evolution of the field and the intellectual challenges it presents. Designed to assist both preparers and potential users of financial reports, this book emphasizes concepts over rules and

regulations to help students think critically and consider the effectiveness of alternate methodologies.

standards for the United States Government. These standards are recognized as generally accepted accounting principles (GAAP) for the Federal Government. An accounting standard is typically formulated initially as a proposal after considering the financial and budgetary information needs of citizens (including the news media, state and local

Generally Accepted Auditing Standards, or GAAS are sets of standards against which the quality of audits are performed and may be judged. Several organizations have developed such sets of principles, which vary by territory. In the United States, the standards are promulgated by the Auditing Standards Board, a division of the American Institute of Certified Public Accountants (AICPA).
