Medical Biochemistry Examination I October 5, 2001 Kresge Auditorium Please follow these directions: 1. Do not begin the exam until all students have received a copy of the exam. You will be instructed as to when to break the seal. 2. The exam consists of 125 questions on 33 pages, with this title page considered page 1. There are 150 points on ...

Read Biochemistry Final Exam Study Guide.pdf

The content of the test is organized into three major areas: biochemistry, cell biology, and molecular biology and genetics. In addition to the total score, a subscore in each of these subfield areas is reported. Because these three disciplines are basic to the study of all organisms, test questions encompass both eukaryotes and prokaryotes.

Exams from previous instantiations of similar courses. Here are PDF files of all my exams, some with answers, from my 2nd-semester general chemistry class (271), undergraduate general Biochemistry (461 and 463), and biological information processing classes (465, 661, 662, and 674; grouped because they cover overlapping material).

The content of the test is organized into three major areas: biochemistry, cell biology, and molecular biology and genetics. In addition to the total score, a subscore in each of these subfield areas is reported. Because these three disciplines are basic to the study of all organisms, test questions encompass both eukaryotes and prokaryotes.

Exams in college are much different than they are in high school. Likely, in high school, you received a study guide, or an explicit list of information to know for your final exam. In college, you may not get anything at all, so you'll need to study in a very different way. Here are a few tips for how to study for final exams in college.
