From his geodesic dome to books popularizing the terms “spaceship earth” and “synergetics,” the life mission of R. Buckminster Fuller (1895–1983) was to create living environments that minimized consumption of the earth’s resources while maximizing interconnections with global systems of information and transportation.

“Everything I Know” – R. Buckminster Fuller. 2 transition into some kind of new relationship to Universe, I’d say, the kind of acceleration that would occur after the child has been formed in the womb, taking the nine months, and suddenly begins to

Fuller's outrageous statements without careful consideration, and even hesitated to call "Sum of angels around each vertex" in the rough manuscript a misprint. The truth has usually turned out far stranger than Buckminster Fuller! Fuller is a Janus: grass-rooted in the past, he creates beacons for the very young.
