motion of the piston to rotary motion with the help of connecting rod. Connecting rod is the same rod which is discussed above and it transfers power from the piston to the crankshaft. Crankshaft has provisions for static and ...

Engine Oil: Since inspections must be done every time you change the oil of your car, it is expected that the engine oil should be your priority. Generally, mechanics use oil dipsticks to know the oil level. And the dipstick helps you determine if you should refill the oil. So for your assessment checklist, ensure that the engine oil stays at the appropriate level to avoid overheating and ...
