Products air conditioning unit is composed of two major component installations: (1) the Equipment Package and (2) the Evaporator Package.

Although it carries a 300-series number, the 340 and 414 are similar, sharing the same wing, flaps, ailerons, landing gear and engines. Like the 414 and other cabin twins, the 340 has an air-stair door, thus you don't need a ladder to get into it, as some have jokingly complained about the long-legged Cessna ...

14/2/2017 · Air conditioning might be the factory system, which requires the right engine be running to get cool air. Parts for this system can be challenging to get. The Keith System, also called JB Air by many, is electric and can be powered by a ground APU, although in the real world of FBOs, a 340 rarely gets the APU. Support for the Keith system is good.

The most basic Cessna repair manual is going to be the kind you find in most retail stores. It's easy enough to read and understand, but it doesn't cover many types of maintenance issues and you probably won't get all of the information you need. A good Cessna repair manual will have pages on things like oil changes and air filter replacements.
