shearing occurs across two surfaces. Knowledge of shear failure is important while designing any structures or machine components.

Bounded rationality - Wikipedia

Bounded rationality is the idea that rationality is limited when individuals make decisions. In other words, humans' "...preferences are determined by changes in outcomes relative to a certain reference level..." as stated by Esther-Mirjam Sent (2018) Limitations include the difficulty of the problem requiring a decision, the cognitive capability of the mind, and the time available to
