The Principles and Practice of Engineering (PE) exam tests for a minimum level of competency in a particular engineering discipline. It is designed for engineers who have gained a minimum of four years' post-college work experience in their chosen engineering discipline. The PE Civil exam is an 8-hour exam with 80 questions.

The PE Civil exam is an 8-hour exam. All examinees take a common 4-hour breadth section and then are separated into their chosen depth section for the remainder of the exam. Examinees have the option to choose construction, geotechnical, structural, transportation, or water resources & environmental depth.

The book has pertinent information in reference to the PE Exam for Civil Engineering. However, very disappointed with the index. The index points you to the wrong page everytime. This is quite annoying when you're planning to take a test that is timed. ...

Our FE Civil exam prep course is designed to help you pass the exam. Our instructors implement both refresher sessions and workshop sessions into the FE Civil exam review course. The refresher sessions focus on teaching students engineering concepts, whereas the workshop sessions focus exclusively on providing FE exam practice by solving problems that are critical for the FE Civil exam.
