## **Tree of life (biology) - Wikipedia**

*The tree of life or universal tree of life is a metaphor, model and research tool used to explore the evolution of life and describe the relationships between organisms, both living and extinct, as described in a famous passage in Charles Darwin's *On the Origin of Species* (1859).. The affinities of all the beings of the same class have sometimes been represented by a great tree.*

this version can be very useful guide, and **Classification Primer 6th Edition** books play an important role in your products. The problem is that once you have gotten your nifty new product, gets a brief glance, maybe a once over, but it often tends to get discarded or lost with the original packaging.
