Ethernet; IEEE 802.5: Token Ring Network

The course contents of computer network under bachelor degree level is very basics. It simply provides the overall theoretical knowledge on communication standards, protocols and network programming. Students have to learn about lots of new terms and technologies in computer network making this a bit hard to grab the knowledge the sufficient

Data Communication and Computer Network 1 A system of interconnected computers and computerized peripherals such as printers is called computer network. This interconnection among computers facilitates information sharing among them. Computers may connect to each other by either wired or wireless media.
