3/2/2017 · The salary of the physicians will be \$ 70,000, and the cost of hiring and training will be \$5,000. Therefore, when calculating the CBA, we first get the total costs by adding all the costs. In this case, it will be salaries + equipment + cost of hiring and training. = 100,000 + 70,000 + 5,000. = \$ 175,000.

of cost-benefit analysis including the following three major categories: 1. Maximize benefits/minimize cost. An optimal point that balances benefit and cost. 2. Fixed cost. For a fixed budget, the function defines a set of R&D proposals that maximizes total benefit. 3. Fixed benefit. For a minimum standard of benefit (e.g., 80%), the function
