As Governor Edmund G. Brown Jr. last week announced a \$1 billion legislative package to help California communities cope with the state's ongoing drought and the State Water Resources Control Board expanded water conservation regulations, DWR continued preparations for a fourth dry year with snowpack water content at only 9 percent of average and groundwater levels continuing to drop.

Anderson's Atlas of Hematology, Third Edition is the most comprehensive atlas for the laboratory technologist. This text meets the needs of beginning hematology students in 2-year and 4-year medical laboratory science programs or students in programs learning the basics of hematology such as nurse practitioners, physician assistants, and medical students.

My only criticism is that I bought the revised edition which contains extra material from articles and blogs. This material, however, is of little value. I gave the book 4 stars simply because this extra material was a waste. The primary book itself, however, is every bit a 5 star read. All in all, this is a well written and fascinating book.
