Letter to SS-Obergruppenführer Oswald Pohl, May 19, 1944 (Nazi Conspiracy and Aggression - Washington, U.S Govt. Print.Off., 1946, Supp. A, p. 1270-1271): Dear Obergruppenführer, Following our application of 30.9.43, you gave me your authorization on the 25.10.43 for the carrying out of experiments with a view to producing a new kind of spotted fever serum and transferred 100 suitable ...

More than 7% of all German physicians became members of the Nazi SS during World War II, compared with less than 1% of the general population. In so doing, these doctors willingly participated in genocide, something that should have been antithetical to the values of their chosen profession. The participation of physicians in torture and murder both before and after World War II is a ...

Although Jews accounted for only 0.8 percent of the residents in Germany in 1933, at least 16 percent of German physicians were Jewish. Once the Jewish physician graduated from medical school, he, or rarely she, would often experience difficulty in obtaining a hospital appointment at non-Jewish institutions -- hence the development of Jewish hospitals.

examining the factors that determined whether judges in Nazi Germany sentenced to death defendants charged with high treason and treason, the most serious of political offences. Nazi Germany provides a good example of the bifurcation of the criminal justice system in one-party states. When the Nazis came to power in January 1933, cases of

sentenced only eleven leading Nazis to death. Many others were imprisoned for life. The retribution did come, yet the punishment of the Nazis was far short of the brutality and extent of their crimes. The Allies did not want to be as harsh on defeated Germany as they had been after the First World War.

The modern body of medical knowledge about how the human body reacts to freezing to the point of death is based almost exclusively on these Nazi experiments. This, together with the recent use of data from Nazi research into the effects of phosgene gas, has proved controversial and presents an ethical dilemma for modern physicians who do not agree with the methods used to obtain these data.[16]

20/9/2017 · To understand initial German reactions to the loss of Hitler , we have to situate them within a longer history of Nazi rituals and martyrdom legends. 7 During the Third Reich, the Nazi regime routinely peddled the notion that fallen comrades were not truly dead, but continued to fight for Germany as part of an immortal, spiritual army. . This was important, ideological glue for manufacturing ...
