Mindfulness is generally considered to be  
the contraction of two larger concepts:  
practiced, focused attention and non-  
judgmental perspective reorientation  
(Lindsay & Creswell, 2017).

discover relevant research.

30/1/2011 · Mindfulness training involves both the establishment of an awareness of oneself as a ‘complete whole’ ( Kabat-Zinn, 1990 ), and the cultivation of compassion. The morphological changes in the TPJ might be associated with increases in compassion attributed to meditation training ( Shapiro et al., 2005) and the cultivation of an embodied self.
