Dietetics of Naturopathic Medicine reviews the writing of these early Naturopaths who scrupulously examined and documented the role of diet and food. As important today as when these pioneers first brought forward their discoveries into clinical practice, their dietetic knowledge is a precious resource for the modern Naturopath.

seminating information.<sup>4</sup> In their own words, “the CARE guidelines provide a framework that supports transparency and accuracy in the publication of case reports and the reporting of information from patient encounters.”<sup>5</sup> The CARE guidelines represent an excellent foundation for naturopathic ...

Editorial Drift by Benedict Lust, ND Naturopathy is a hybrid word. It is purposely so. No single tongue could distinguish a system whose origin, scope and purpose is universal—broad as the world, deep as love, high as heaven. Naturopathy was not born of a sudden or a happen-so. Its progenitors have for eons been projecting ...
