Narrated by actor John Lithgow, the film is based on David Bodanis's 2000 bestseller $E=mc^2$: A Biography of the World's Most Famous Equation. It premiered in 2005, the 100th anniversary of Einstein's Annus Mirabilis –the “miraculous year” when the 26-year-old patent clerk published five papers within a six-month period that would revolutionize 20th century physics.

In music, serialism is a method of composition using series of pitches, rhythms, dynamics, timbres or other musical elements. Serialism began primarily with Arnold Schoenberg's twelve-tone technique, though some of his contemporaries were also working to establish serialism as a form of post-tonal thinking. Twelve-tone technique orders the twelve notes of the chromatic scale, forming a row or ...

Time Travel and the Fascism of the WingMakers Project. In this article I will investigate common theories of time travel as they have been discussed in science, fiction, and urban legends. Hereafter I will investigate the newest New Age invention The WingMakers Project, which, based on a theory of time travel, is creating a pseudohistorical hoax.

Halliday Resnick Walker. This well-known textbook is often called the bible for physics. It is recommended for high school students to prepare for competitive examinations like IIT-JEE. In 2002, the American Physical Society named it the most outstanding introductory physics text of the 20th century. [click to buy from Amazon](#).
