Almost from the start the EMD SD90MAC's 6,000hp 16-cylinder 265 "H" engine (known as the EMD 265-H) began to reveal some of its numerous flaws. Such as "teething" issues with the cylinders, crankshaft failures, as well as having the entire engine shut down due to overheating the entire cooling system (although the cooling system was originally guaranteed to be successful for the "H" engine ...
