with musical emotion—how music produces emotion, and what musical emotion is or does. In an ethological view, the biological purpose of emotions is to motivate behavior—to make us respond appropriately to the sorts of occurrences in the environment that could affect us, for good or ill. In this sense, then, musical

1/5/2017 · Thus, lesions following cerebral damage lead to impairments of appreciation of pitch, timbre and rhythm (Stewart et al, 2006) and studies using brain imaging have shown that the right hemisphere is preferentially activated when listening to music in relation to the emotional experience, and that even imagining music activates areas on this side of the brain (Blood et al, 1999).

Both music and musical instruments are intimately connected to the physics of waves and sound. To fully appreciate what occurs in a musical instrument when it makes music or to understand the rationale for the development of the musical scales one needs a broad foundation in most elements of wave and sound theory. With that said,

the active process of making music, provides the greatest benefits in developing of learning potential. The journal, *Teaching Music* (1999:31) claims that moving to music, dancing, playing instruments and experimentation with materials that make sounds
