23/1/2007 · I have a problem that surfaced yesterday and happened again today. I have a 2004 F-350 6.0 powerstroke. Yesterday and tonight I was attempting to accelerate from a stop sign, when I gave it throttle the truck sputtered and the RPMs would not come up. The engine sounded like the RPMs wanted to start coming up and then it lagged down again.

performance and eventually not start at all.

My stock crx HF has just started sputtering on my way back to work from lunch. When I'm at a complete stop in neutral the engine revs fine, but when I put the thing in 1st gear and accelerate from a stop, the things sputters and if I keep the gas pedal constant (i.e. not giving it more/less gas) it will come out of that sputtering a few seconds after (2-3 seconds) and go ok after that.
