of applied psychology. Applied psychology makes use of psychological principles and theories in areas such of mental health and education. Psychology as a discipline was founded by F. Galton (Inquiries into Human Faculty, 1883). However, this discipline gave rise to various different schools of thought, such as behaviourism (J.B Watson).

The modifiers used in some of the standards of this Ethics Code (e.g., reasonably, appropriate, potentially) are in-cluded in the standards when they would (1) allow profes-sional judgment on the part of psychologists, (2) eliminate
