Excel VBA Macro Programming-Richard Shepherd 2004-02-04 Make Excel work harder and faster for you. This unique book presents sample code
for more than twenty practical, high-powered Excel VBA macro applications.

A macro can be easily created by instructing Excel to record a series of routine actions. This is very useful for repetitive tasks. • To record a macro: 1.
Choose Tools > Macro > Record New Macro. 2 In the Macro name text box, type a name for the macro. The macro name can contain letters,
numbers and underscores; it must begin with a letter.
