Facial feminization surgery. Facial feminization surgery (FFS) is a set of cosmetic surgical procedures that alter typically male facial features to bring them closer in shape and size to typical female facial features. FFS can include various bony and soft tissue procedures such as brow lift, rhinoplasty, cheek implantation, and lip augmentation.

Dr. Kathy Rumer is an expert in transgender surgery, performing 200-250 MTF gender reassignment surgeries per year. Dr. Rumer also directs a 1-year gender surgery fellowship program. She offers the full range of male to female surgery procedures, including Vaginoplasty, Facial Feminization Surgery and Breast Augmentation.

Many surgeons insist that transgender women discontinue estrogen for several weeks before and after any gender affirming procedure.[60,61] These recommendations may appear as benign to the surgeon; however to the transgender woman undergoing a life and body-altering procedure simultaneous with gonadectomy, sudden and prolonged complete withdrawal of estrogens can have a profound impact.

Although the prevalence of these procedures is difficult to quantify, because of the rising prevalence of transgenderism (approximately 1 in 14,000 men) along with improved insurance coverage for gender-confirming surgery, surgeons versed in techniques, outcomes, and challenges of facial feminization surgery are needed.

London Transgender Surgery values the health and safety of our patients. Read More about how we are addressing the current situation.. Please take this survey so we can help understand the impact of the Covid-19 pandemic on Trans Health and Health Care

If you have Medicaid “FEE-FOR-SERVICE,” you use a NYS benefits card to receive your Medicaid. 1. Find a surgeon who accepts Medicaid. 2. Give the two letters to your surgeon. Your surgeon will give the letters to Medicaid (the NYS Department of Health) and ask for a “prior approval” to perform the surgery. 3.
