12/6/2018 · Our objective is to provide a foundation to answer key questions facing copyright holders, technology developers and consumers. Among these: How do we balance the legitimate interests of copyright holders with the legitimate interests of the public in the use and enjoyment of digital media? Should technology developers be accountable to copyright holders?

Just as webcasters appear to be facing demands for royalty payments for incidental exercise of the reproduction right in the course of licensed public performances, it appears that companies that sell licensed digital downloads of music are facing demands for public performance royalties for a technical "performance" of the underlying musical work that allegedly occurs in the course of ...

On the surface, things appear normal. The status quo of the balance between the public sector and the private sector in regards to corporate social responsibility (CSR) and governance, risk and compliance (GRC) isn't to everyone's liking, but it is still a work in progress after a fashion. We are muddling through.

30/3/2020 · Internet Archive responds: Why we released the National Emergency Library. Last Tuesday we launched a National Emergency Library—1.4M digitized books available to users without a waitlist—in response to the rolling wave of school and library closures that remain in place to date. We've received dozens of messages of thanks from teachers ...

12/6/2017 · Government Regulation: The Good, The Bad, & The Ugly. The authors of this paper examine the important role regulations play in a vibrant economy, how they differ from other government programs, why they can produce unintended consequences, and how reforms could help us achieve the benefits regulations can provide with fewer negative outcomes.
