Engineering is the application of knowledge in the form of science, mathematics, and empirical evidence,
to the innovation, design, construction, operation, and maintenance of structures, machines, materials,
devices, systems, processes, and organizations. Engineering is a vast discipline to study and there is a

huge number of students entering into this stream every year.

Engineering is the application of knowledge in the form of science, mathematics, and empirical evidence, to the innovation, design, construction, operation, and maintenance of structures, machines, materials, devices, systems, processes, and organizations. Engineering is a vast discipline to study and there is a huge number of students entering into this stream every year.

In keeping with this view of engineering's responsibility as a whole, IUPE students take liberal arts subjects and science core classes in the first year, and then proceed to take specialized subjects common to the four subjects offered by the School of Engineering, and others that are specific to each program for the remainder of their study.
