"Anthes's new book, *Frankenstein's Cat*, is an important one precisely because of that visceral reaction we all feel in response to the very idea of biotech. It's a no-bullshit account that looks at the way biotechnology is used today, separating fact from fiction and explaining what you need to know about this thing that creeps us all out."

Biotech's Brave New Beasts, Emily Anthes
In China, the world's manufacturing
powerhouse, a new industry is taking shape:
the mass production of mutant mice. " For
centuries, we've toyed with our creature
companions, breeding dogs that herd and
hunt, housecats that look like tigers, and
teacup pigs that fit snugly in our handbags.
