22/2/2021 · Full-time manual focus can be used in many situations but is especially helpful for close-up and macro work. The challenge being that the lens needs to be focused by the camera, and then be available to be focused manually without grinding the gears or forcing the focus motor. Canon invented USM focus motors for fast and silent AF.

focus. With MF "on", Pressing shutter half way down will do nothing to the focus. you have to turn the focus ring to adjust the focus. That is manual focus. 5D MKII, 24-70mm L, 18-55mm IS, 70-200mm 2.8L IS, 50mm 1.8, 100mm Macro, 2-580EX.
LIKES 0.

24/2/2015 · Yeah, it's basically like having a full time manual focus lens on there, and will only trigger the AF motor on the lens when the AF-On is pressed. It's something I use a lot in music stuff, where I'll track in to about 95% focus with the manual (lot quicker than letting the lens hunt under stage/dynamic light) and then just tighten it up with the back button.
