1/1/1997 · This volume draws attention to the plight of urban blacks in the contemporary world and links their situation across five key global regions. It argues that while the world's population is predominantly urban, persons of African descent are disproportionately urbanized and impoverished, and it shows how significant changes in the global arena, among them new information technology, the ...

work and the Protestant ethic and the spirit of capitalism promulgated throughout the ...

81. Another contributor to the Senegal dialogue said the impact on African business was an “unequal combat which would lead to certain death”. According to a leader from civil society, Africa needed to “develop a culture of resistance” to globalization in order to avoid being reduced to the status of a “beggar economy”. 82.

The African political instability and other related problems is basically a consequence of its leadership problem. At domestic level, African governments are run in ways that have been regarded as far from the
