After the Enron and World Com financial frauds the SOX held the CEO and the CFO liable and responsible for the financial statements produced by the company. The SOX required more documentation of process, decreased the time between reporting financial statements, and prohibited accounting firms from selling their non audit business to the companies.

Corporate Finance. Corporate finance: Corporate finance is an area of finance dealing with the financial decisions corporations make and the tools and analysis used to make these decisions. The primary goal of corporate finance is to maximize corporate value while managing the firm's financial risks. Although it is in principle different from managerial finance which studies the financial ...
