A laser is a device that emits light through a process of optical amplification based on the stimulated emission of electromagnetic radiation. The word "laser" is an acronym for "light amplification by stimulated emission of radiation". The first laser was built in 1960 by Theodore H. Maiman at Hughes Research Laboratories, based on theoretical work by Charles Hard Townes and Arthur Leonard ...

Effect Of Replacement Of Cement By  
Metakalion On The Properties Of High  
Performance Concrete Subjected To  
Hydrochloric Acid Attack Abstract: This  
paper presents an experimental  
investigation on the effect of partial  
replacement of cement by metakalion by  
various percentages viz 0%, 10%, 20%, and  
30% on the properties of high performance  
concrete, when it is subjected to  
hydrochloric acid attack.
