7800 SERIES Relay Module APPLICATION The Honeywell RM7838B,C is a microprocessor based integrated burner control for industrial process modulating semiautomatically fired gas, oil, coal or combination fuel single burner applications. The RM7838B,C System consists of a relay module, wiring subbase, keyboard display module (KDM), amplifier, and

7800 SERIES Relay Modules APPLICATION The Honeywell RM7800/RM7840 Relay Modules are microprocessor-based integrated burner controls for automatically fired gas, oil, or combination fuel single burner applications. The RM7800/RM7840 Relay Modules are used for UL/CSA On/Off, UL/CSA Modulating, and FM/IRI Modulating burner applications.

a series string of limit, control and interlock contacts for a commercial or industrial burner. The S7830 acts as a system monitor and enhances fault and status messages for the 7800 SERIES burner control. **ControlBus Communications** The S7830 provides interfaces with the 7800 SERIES Relay module through a three-wire RS-485 interface. Using this

AUTHORIZED HONEYWELL 7800 SERIES DISTRIBUTORS. For the name of your nearest authorized Honeywell 7800 SERIES Distributor, please call 1-800-345-6770, ext. 2040.

RM7890A,B,C,D/EC7890A,B Primary Controls Microprocessor-based integrated primary burner control for automatically fired gas, oil, coal or combination fuel single burner applications.

7800 SERIES Relay Modules APPLICATION The Honeywell EC7820 is a microprocessor-based integrated burner control for automatically fired gas, oil, or combination fuel single burner atmospheric

with fan (EC7820A) applications. The EC7820 Relay Module system consists of a relay module, wiring subbase, amplifier, and purge card. Options include ...

reset, report generation, burner control data and diagnostic information. The KDM is part of the 7800 SERIES of microprocessor-based burner controls for gas, oil, coal or combination fuel single burner applications. The 7800 SERIES is programmed to provide a level of safety, functional capabilities and features beyond the capacity of

View and Download Honeywell 7800 Series installation instructions manual online. Relay Modules. 7800 Series control unit pdf manual download. Also for: Rm7897a1002, Rm7897c1000.

Honeywell Model 7800 Burner Control Manual Recognizing the habit ways to get this book **Honeywell Model 7800 Burner Control Manual** is additionally useful. You have remained in right site to begin getting this info. get the **Honeywell Model 7800 Burner Control Manual** associate that we offer here and check out the link. You could buy guide ...

The EC/RM7800 series are microprocessor-based industrial burner controls for automatically fired gas, oil or combination fuel single burner applications. • The 7800-series are enabled for remote monitoring via the Thermal IQ Honeywell Connected Plant solution. For all type of burners ...

See also: Product Data, Instruction Manual. 7800 SERIES RM7890A,B,C. The Honeywell RM7890 is a microprocessor. based integrated burner control for automatically. fired gas, oil or combination fuel single-burner appli-. cations. The RM7890 consists of the Relay Module. Subbase and Amplifier are required to complete the.
