10/5/2011 · The head gasket is found between the engine block and the cylinder head or heads in a V-type engine. The gasket functions as a seal that prevents the combustion process from leaking into the coolant passages that surround each cylinder. In many cases, it seals oil passages from coolant passages so the fluids do not mix.

3/7/2006 · LawnSite Member. Location. Richmond VA. May 25, 2006. #5. milo said: a dealer told me that the head gasket was bad on my kohler and he said 200 to replace both. i called 4 dealers. \$200.00, 2, 450.00 3, 1 hour \$52.00 plus gaskets. and 4th dealer said 2 hours at \$54.00 plus gaskets.
