scale on the Turntable (Y); put the tyre on turntable, hold the rim, and tread the Jaws open and close Pedal (V) until the wheel is secured by the jaws. b- to clamp the wheel from inside: Positioning for the four clamps (G) and let them all closed. Put the tyre on the turntable and tread the Jaws open and

Position the wheel against the rubber stop on the right side of the tire changer. Position the bead breaking blade against the tire bead at a distance of about 1 cm from the rim. Pay attention to the blade, which must be correctly onto the tire not onto the rim.

ground. Put the transmission into "Park" (or put the gear shift into reverse if you have a manual transmission) AND SET THE HAND BRAKE. Now you're ready to go looking for the tools you'll need. Tip: When in doubt, take a minute and check your owner's manual. (Remember that?)

Overview: The CH-22 Multi-Tire Changer accommodates tires ranging from 4" to 16.5" in diameter. This is made possible by using different Center Posts and varying the position of the Jaw Clamps. With the assortment of other available options it gives the Multi-Tire Changer an even broader range of tire size capabilities to work with

Organize the manual logically. The user manual should proceed in a way that the user will find most beneficial. Split the manual into chapters or sections that make sense for the product's use, and include a table of contents toward the front of the manual so each section can be found quickly. How to Create a User Manual (with Pictures) - wikiHow
