37 Full PDFs related to this paper READ PAPER d/Deaf young people's experiences of transition planning in England: using auto-driven photo-elicitation interviews and Critical Discourse Analysis to explore experiences of policy and practice.

An analysis and evaluation of the processes of communication among deaf children. Emphasizes actual observation in schools rather than relying solely on tests and experiments. Offers a number of criticisms of educational methods and teaching techniques, arguing that many of the deaf child's problems are not a 'natural' product of the disability but are created by ineffective educational methods.

2/12/2013 · Publications include Inner lives of deaf children: Interviews and analysis (2001) and Deaf Adolescents: Inner lives and lifeworld development (2008) and other topics including social work assessment and practice with deaf people, deaf women, deaf parenting with hearing children, adolescents with ushers syndrome, suicide prevention, and existential transcendence.

28/5/2014 · Abstract. We studied identity development during 5 years in seven deaf adolescents who attended a school for deaf children in the highest level of regular secondary education (age between 14 and 18 years), administering identity interviews every year.

This paper describes an exploratory study of a fifteen-week program of child-centered play therapy provided to four deaf children by a hearing therapist fluent in sign language. Historical and contemporary perspectives on Deaf culture and American Sign Language (ASL) are described, along with implications for appropriate mental health services.

The author interviews different children at their schools and homes and evaluates their feelings and point of view of ...

This study aims to explore ethnographically what it means to be a deaf person, as conveyed by the stories of deaf adults. Prior research has established that deaf persons' educational experiences have a profound impact on how they perceive themselves (Leigh, 2009). In this paper, we—a team of one deaf and one hearing researcher—will explore in detail the life stories of a range of deaf ...
