Be careful not to scratch the air conditioner when handling it. After installation, explain correct operation to the customer, using the operating manual. Let the customer keep this installation manual because it is used when the air conditioner is serviced or moved. The maximum length of the piping is 66 ft (20 m).

- Install the air conditioner securely in a location where the base can sustain the weight of the unit adequately.
- Perform the specified installation work to guard against an earthquake. If the air conditioner is not installed appropriately, accidents may occur due to the unit falling.
