Whether or not something is deviant depends on contextual definitions, the situation, and people's response to the behaviour. Society seeks to limit deviance through the use of sanctions that help maintain a system of social control. In modern normalizing societies, disciplinary social control is a primary governmental strategy of social control.

Remarkable gains have been made in global health in the past 25 years, but progress has not been uniform. Mortality and morbidity from common conditions needing surgery have grown in the world's poorest regions, both in real terms and relative to other health gains. At the same time, development of safe, essential, life-saving surgical and anaesthesia care in low-income and middle-income ...
