15/4/2013 · New to design for mobile devices. How can I ensure, especially for iOS, that the browser is really using the CSS media queries I have built in and not simply re-sizing the page? For instace, I'm trying to set a media query so that I can have different layouts in portrait and landscape views on the iPad, but it looks like Safari is simply re-sizing or zooming rather than loading the media query.

20/4/2012 · Apple itself has taken to replacing it's old images with high resolution versions when delivering to the new iPad – and only on selected pages. Reportedly, their home page blossomed from about 500k to over 2MB (4x!) when being delivered to a new iPad. This might give pause to people using their iPad over a bandwidth limited 3G/4G connection.
