

# Kazungula Bridge Design

Victoria Falls Bridge - Wikipedia dolohen.com

Constructed from steel, the bridge is 198 metres (650 ft) long, with a main arch spanning 156.50 metres (513.5 ft), at a height of 128 metres (420 ft) above the lower water mark of the river in the gorge below. It carries a road, railway and footway. The bridge is the only rail link between Zambia and Zimbabwe and one of only three road links between the two countries.

We would like to show you a description here but the site won't allow us.
