The D902 engine delivers the highest output within the Kubota Super Mini Series engines. By expanding the bore and stroke, Kubota increased engine displacement, while maintaining the same footprint as the D722 engine. By adopting an extended shallow oil pan, the engine height is lower than the D722 engine, providing a compact engine package.

The D902-TE4 delivers the highest output among the Kubota Super Mini Series engines. This turbocharged engine provides 18.5kW at 3200 rpm but it is kept compact and light-weight with Kubota's original casting technology. The D902-TE4 has also been designed to minimize its noise for more comfortable use. Reliable Performance with High Torque
