thousand editions of Euclid's Elements have appeared since the first printed edition in 1482, and for more than two millennia this work dominated all aspects of geometry, including its teaching. In the nineteenth century, geometry, like most academic disciplines, went through a period of growth that was near cataclysmic in proportion.

The ClueFinders is an educational software series aimed at children from age 8-12 that features a group of mystery-solving teens. The series was created by The Learning Company (formerly SoftKey) as a counterpart to their Reader Rabbit series for older, elementary-aged students. The series has received praise for its balance of education and entertainment, resulting in numerous awards won.

Extensively updated art program better directs students' attention to key elements in the art and promotes understanding of the processes depicted. Dozens of figures in the 5th Edition were reviewed by learning design specialists to ensure they are clearly navigable for students and now include more helpful annotations and labels to help readers focus on key concepts.

Like free play, children learn through exploring and experimenting with art media. Terreni (2010) states that art is “often identified as a distinct area of play” (p. 2), and by engaging in and with different arts during early childhood, this will not only influence the achievement of present learning outcomes but also enable behaviours and attitudes that will support future learning in ...

Due to Adobe's decision to stop supporting and updating Flash® in 2020, browsers such as Chrome, Safari, Edge, Internet Explorer and

Firefox will discontinue support for Flash-based content. PHSchool.com has been retired.

Staying Healthy provides educators and other staff working in education and care services with simple and effective methods for minimising the spread of disease. It contains more 'how to' advice on procedures and discussing exclusion periods with parents. The advice is presented in six parts:

The 8th Edition guides students through tough A&P topics, helping them retain challenging content in the fast-paced one-semester A&P course. The new edition draws on the outstanding art and hallmark features from the text to create interactives and digital assets that walk students through complicated art and help them to understand difficult concepts.

Mezirow claims that learning involves five interacting contexts: the frame of reference or meaning perspective in which the learning is embedded; the conditions of communication; the line of action (process) in which the learning occurs; the self-image of the learner; and the situation encountered during the learning process (p. 13). Implications for Online Learning 1.
