The animal featured on the cover of Unix in a Nutshell is a tarsier, a nocturnal mam-mal related to the  
lemur. Its generic name, Tarsius, is derived from the animal's very long ankle bone, the tarsus. The  
tarsier is a native of the East Indies jungles from Sumatra to the Philippines and Sulawesi, where it  
lives in the trees, leaping from

Linux, in a Nutshell, is a book written by Stephen Figgins. The book includes programming tools,  
system and network administration tools, the shell, editors, etc. This book focuses on Linux system

essentials, as well as more coverage of new capabilities such as virtualization, revision control with git.

File Type PDF Linux Kernel In A Nutshell In A Nutshell Oreilly Git - A Short History of Git Linux is a group of Unix-like operating systems based on the Linux kernel.
