4/10/2016 · We have used the term “person-centered care”, but facilities have the flexibility to use any term they choose internally as long as the principles described in the regulation are met. Facilities should implement the principle of “person-centered care” by developing internal guidelines that promote resident choice and control over their individual care.

8/11/2019 · This toolkit was developed in collaboration with several long-term care facility partners to offer concrete tools that could help facilities recognize their baseline antimicrobial stewardship capacity and enhance their existing assessment, documentation, and communication processes.

The National Study of Long-Term Care Providers (NSLTCP) is now called the National Post-acute and Long-term Care Study (NPALS). This new name reflects the addition of more post-acute sectors (i.e. inpatient rehabilitation facilities and long-term care hospitals), while keeping the same sectors that have been in the study since it launched in 2012 (adult day services centers, assisted living ...
