[EPUB] [PDF]

**An AppleTV, a Mac Mini HTPC - or both? | All Apple All Day**

*12/2/2013 · And yes, it's probably overkill to leave an AppleTV in a system that ALSO features an HTPC - as I get more familiar with the HTPC's capabilities, there's a solid chance their functions will overlap. But at least at the outset, they will be doing different things - the ATV handles AirPlay, while the HTPC ...*

**I think a made a huge mistake. Mac Mini HTPC : htpc**

*I'm a bit bummed right now with my Mini HTPC. I recently sold my jailbroken Apple TV because I decided to use my Mac Mini as a HTPC (just wasn't using it as a computer, use my laptop all the time). That and the Apple TV was starting to show it's age, had a hard time streaming some files, could never stream any HD streams off of Icefilms.*

**New to mac mini htpc. - Kodi Community Forum**

*26/3/2014 · The difference is, that virtual machines like parallels or vmware fusion will be started up while you're running OSX - like running any software. The virtual machine gets some parts of you system memory and CPU recourse. With boot camp its an either ... or ... solution -> you choose the OS after starting your mac.*
