Star/Delta starters are probably the most common reduced voltage starters in the 50Hz world. (Known as Wye/Delta starters in the 60Hz world). They are used in an attempt to reduce the start current applied to the motor during start as a means of reducing the disturbances and interference on the electrical supply.

STAR DELTA connection Diagram and Working principle.docx ...

STAR DELTA connection Diagram and Working principle. Descriptions: A Dual starter connects the motor terminals directly to the power
